

Think that's a bad thing? just because you're screaming and
screaming told you blood and violence is bad, you think it's a
fucking law of nature? wrong, only science and math are true,
everything, and I mean every fucking thing else is Man made.
my doctor wants to put me on medication to stop thinking
about so many things and to stop ~~thinking~~ ^{being} angry. well, I
think that anyone who doesn't think like me is just
bullshitting themselves. Try it sometime if you think
you are worthy, which you probably will you little shit,
drop all your beliefs and values and ideas that you have
been burned into your head and try to think about why
you're here. but I bet most of you fuckers can't even think
that deep, so that is why you must die. how dare you
think that I and you are part of the same species when
we are sooooo different. you aren't human. you are a Robst.
you don't take advantage of your & capabilities given to you
at birth, you just drop them and hop onto the boat and head down
the stream of life with all the other fuckers of your type.
well god dammit I won't be a part of it! I have thought
too much, realized too much, found out too much, and I am
to myself aware to just stop what I am thinking and go
back to society because what I do and think isn't "right" or
"morally accepted" NO, NO, NO. God Fucking dammit NO!
I will sooner die than betray my own thoughts. but before
I leave this worthless place, I will kill whoever I deem
unfit for anything at all. especially life. and if you pissed
me off in the past, you will die if I see you. because you
might be able to piss off others and have it. eventually
all blow over, but not me. I don't forget people who wronged
me, like [REDACTED] he will never get a chance
to read this because he will be dead. ~~by~~ by me before
this is discovered. — 4/21/98

The human race sucks. human nature is smothered out
by society, job, and work and school. instincts are deleted
by laws. I see people say things that contradict themselves,
or people that don't take any advantage to the gift of human
life. They waste their minds on memorizing the stats of every
college basketball player or how many words should be
in a report when they should be using their brain on

- more important things. The human race isn't worth fighting for anymore. WWII was the last war worth fighting and was the last time human ~~life~~ life and human brains did any good any more. now, with the government having scandals and conspiracies all over the fucking place and lying to everyone all the time and with worthless pointless mindless disgraceful TV shows on ~~the~~ and with everyone fucking obsessed with hollywood and beauty and fame and glamour and politics and anything famous, people just aren't worth saving. Society may not realize what is happening but I know you go to school, to get used to studying ~~the~~ and learning how you "supposed to" so that draws or filters out a little bit of human nature. But then after your parents taught you what's right and wrong even though you may think differently, you still must follow the rules. after school you are expected to get a job or go to college; to ~~be~~ have more of your human nature blown out your ass; society tries to make everyone act the same by burying all human nature and instincts. That's what school, laws, jobs, and parents do, if they realize it or not and then, the few who stick to their natural instincts are casted out as psychos or lunatics or strangers or just plain different. crazy, strange, weird, wild, these words are not bad or degrading. if humans were let to live how we would naturally, it would be chaos and anarchy and the human race wouldn't probably last that long, but hey guess what, that's how it's supposed to be!!! society and governments are only created to have order and calmness, which is exactly the opposite of pure human nature. take away all your laws and morals and just see what you can do if the government was one entity it would be thinking "hey, lets make some order here and calm these crazy fucks down so we can be comfortable and fight other governments in our own little so called self created "civilized world" and get rid of all those damn instincts everyone has". well shit I'm too tired to get anymore tonight, so until next time, fuck you all

here something to chew on... today I saw a program on the discovery channel about satellites and radar and aircraft and stuff, and at the end of the show the narrator said some things that made me think "damn, we are so advanced, we kick ass, america is awesome, we have so many things in our military, we would kick anyone's ass." for a minute I actually had some pride in our nation... then I realized, "holy shit, this only the Good things that I am seeing here, only the Pros, not the cons. maybe that's what people see, only the Pros, and that's why they are under control, but me, I see all... you can only blind me for so long, but alas, I have realized that Yes, the human race is still indeed doomed. It just needs a few kick~~ass~~ starts, like me, and hell, maybe even [REDACTED] if I can whip a few cities off the map, and even the fuckhead holding the map, then great. hmn, just thinking if I want All humans dead or maybe just the quote-unquote "civilized, developed, and known-of" places on Earth, maybe leave little tribes of natives in the rain forest or something, hmn. I'll think about that. oh, done for tonight -RFB- 6/13/95-

As part of the human race, and having the great pleasure of being blessed with a brain, I can think. Humans can do whatever they want. There are no laws of nature that prevent humans from making choices, maybe from actually DOING some of those choices, but not from making the choices. If a man chooses to speed while driving home one day, then it is his fault for whatever happens, ~~that~~ if he crashes into a school bus full of kids and they all come to death, it's his fault. It's only a tragedy if you think it is, and then it's only a tragedy in your own mind. so you shouldn't expect others to think that way also. it could also be a miracle for another person, maybe that bus stopped the car from plowing into a little old lady walking on the sidewalk. one could think it was a "miracle" that she wasn't hit. you see, anything and everything that happens in our world is just that, a HAPPENING. anything ~~is~~ is relative to the observer, but yet we try to have a "universal law" or "code" of what is good and bad and that just isn't ~~fracking~~ correct. we shouldn't be allowed to do that. we aren't GODS, just because we are at the top of the food chain with our technology doesn't mean we can be "judges"

I am fucking armed ~~and~~. I feel more confident, stronger, more God-like.
I have confidence in my ability to deserve people, hopefully I'll make it to April, but
it might not happen, Ugh, it's been a busy weekend, I need to sleep, I'll continue tomorrow.

Yesterday we fired our first actual firearms ever. 3 rounds from the carbine.
taught that ground a thing or 2. I even had the 2 clips in my pocket while talking
to vodka's dad about senior ditch day, God it felt great firing off that bad boy,
and hopefully I'll be able to get more than just 4 clips for it. I dubbed my shotgun "Arlene"
after Arlene Sanders from the Doct books. She always did love the shotgun. Vodka's
DB is looking very fucking awesome, all cut down to the proper lengths. This is a bitch
trying to keep up on homework while working on my guns, bombs, and lying. ~~and~~ by the
way, I bought that flask in the mall and I had a friend fill it up w/ scotch whiskey, only
had about 3 swigs in the 3 weeks I had it. plus Monday I gave my T and JC to
Vodka, just in case. I never really did like alcohol, just wasn't my thing, but it felt
good to just have around. That argument on the 22nd was a real bitch, but I
think I should have won a fucking oscar. I even quoted a few movies, remember
"What the hell am I gonna do now man?! What am I gonna do!?" that good old Hudson
from aliens. Sounded good too. and hey god damn it I would have been a fucking
great marine, I would have given me a reason to do good. and I would never drink
and drive. either. It will be weird when we actually go on the rampage. hopefully
we will have plenty of clips and bombs. I'm gonna still try and get my calico 9mm.
just think, 100 rounds without reloading.... hell yeah!

we actually may have a chance to get some machine pistols
thanks to the Brady Bill. If we can save up about 200\$ real
quick ~~and~~ and find someone who is 21+ we can go to the next
gun show and find a private dealer and buy ourselves some
bad ass AB-10 machine pistols. clips for those things can get really
fucking big too. 12/3/98

Woohoo, I'll never have to take a final again! feels good to be free I just love
Hobbes and Nietzsche. Well tomorrow I'll be ordering 9 more 10 round clips
for my carbine. I'm gonna be so fucking loaded in about a month. the big
things we need to figure out now is the time bombs for the cannons and how we
will get them in ~~the~~ and leave them there to go off, without any fuckin Jews
finding them. I wonder if anyone will give a look on me. sure is a ton of symbolism,
deeper meanings, themes, appearance vs reality shit going on here. oh well, it better be fuckin
good if it is written. 12/17/98

hey get this KMFDM's new album is called "Adios" and it's release date is April.

I ripped the hell outta the system. 12/20/98
